### Missoni Baia

Capping out at an abundant 57 stories, Miami's Missoni Baia Tower is nearing its long-awaited completion. The brand's first-ever residential project sits comfortably along Biscayne Bay in the opulent Edgewater neighborhood.

The building presents a coveted waterfront location with world-class design features and amenities. The uniquely modern architectural design by Hani Rashid incorporates a sleek art-inspired exterior, complementing Enzo Enea's richly layered landscape motif. New York designer Paris Forino has gone over every aspect of the elegantly crafted residences, under the esteemed creative direction of Angela and Rosita Missoni. The luxe living spaces feature 10-foot ceilings, spacious terraces, floor-to-ceiling glazing, marble-encased European-style bathrooms and custom kitchen cabinetry with top-of-the-line appliances. Amenities including five separate pools, two poolside lounges, tennis courts, a spa, gym and salon are only some of the indulgent additions the private residence has to offer.
